- Maintain their reading skills during summer vacation.
- Have access to experiences that further their sense of discovery.
- Have access to experiences through which they can learn to work cooperatively.

Join us for books, games, arts and crafts.

JUNE National Safety Awareness Month

Safety Awareness Month focuses on reducing leading causes of injury and death at work, on the road and in our homes and communities.

Injuries are a leading cause of disability for people of all ages and are the leading cause of death for Americans ages 1-44. Good news; everyone can get involved to help prevent certain injuries.

The National Safety Council is focusing on these particular issues:

- **Transportation Safety:** Doing other activities while driving distracts you, increasing your chance of crashing. 1 in 5 crashes with injuries involved distracted driving.
- **Slips, Trips & Falls:** 1 in 3 older adults fall each year leading to broken bones and other health problems.
- **Prescription Painkiller Abuse:** Overdoses grow each year in the United States.
