Re: Permitting – Placement of Fill or Slope Protection

Prior to the beginning a project, hiring a contractor, or completion of any work within Montana's Streams, Wetlands, Floodplains, and other Water Bodies proper permitting is required. The "Joint Application for proposed work in Montana's Streams, Wetlands, Floodplains, and other Water Bodies" is an application form which can be submitted to the standard permitting agencies. The informational package with instructions on how to fill out a complete permit can be found at: <http://dnrc.mt.gov/licenses-and-permits/stream-permitting>.

If you need any additional information or have any questions please feel free to contact me.

Sincerely,

Shannon Hewson
